

The culture at Primary Care Associates of Appleton promotes a working environment that allows for optimal collaborative patient care. We are devoted to treating the whole person, striving to help patients live healthy lifestyles and prevent disease.

As an advocate for my patients, I believe listening is the most important aspect of the visit. By involving patients in the decision-making process, patients are engaged in their health and gain an understanding of their care. Open communication and respect for my patients' concerns provides the foundation for my philosophy of care.

### Education

**Master of Medical Science:**

Yale University - New Haven, CT

**Master of Science in Nutrition:**

Case Western Reserve University - Cleveland, OH

**Bachelor of Science:**

University of Wisconsin-Green Bay - Green Bay, WI

**Board Certification:**

National Commission on Certification of Physician Assistants  
Commission on Dietetic Registration

### Professional Interests

Prior to becoming a Physician Assistant, I had a career as a dietitian so I have a great interest in nutrition and preventive health.

### Personal

I love to do crossword puzzles, play piano, cook, bake, and spend time with my family.
