

Michael J. Van Abel, D.O.

I am thrilled to be part of Primary Care Associates of Appleton, a practice that embodies a strong sense of community and support. As an Appleton native, I have always felt a strong connection to the community and want to contribute to the health and well-being of its residents.

I understand that medicine is an ever-evolving art form, and I embrace the concept of lifelong learning, recognizing that each patient encounter presents an opportunity for growth and improvement. Being practical, approachable, respectful, and resourceful are values that guide my interactions with patients. I want every individual to feel comfortable and confident in discussing their health concerns. No matter their background or the nature of their health issues, I approach each patient with respect and a genuine desire to help.
