

## GENIUS 3D MAMMOGRAPHY AVAILABLE AT PRIMARY CARE ASSOCIATES OF APPLETON

### What is a Genius 3D mammography breast exam?

- A revolutionary new screening and diagnostic tool designed for earlier breast cancer detection.
- Performed in the same manner as a standard 2D mammogram, with the same amount of compression and takes only a few extra seconds.
- 3D mammography captures multiple slices of the breast at different angles to reduce overlapping tissue. This allows the doctor to examine your breast tissue layer by layer.
- 3D is a more accurate mammography exam and reduces callbacks.

### Who should have 3D mammography?

- Anyone can choose to add 3D imaging to their regular mammography appointment.
- Genius 3D exams are a more accurate exam for women of all ages, with both dense and non-dense breasts.

### Is this covered by insurance?

- Check with your insurance company to verify coverage. Screening codes for reference are G0202 and 77063.
- Primary Care Associates will submit appropriate paperwork to your insurance company and, if denied, you will be responsible for a \$60 charge along with any deductibles or co-payments as determined by your insurance company for the mammogram.
  - Primary Care Associates will bill you \$30 for the 3D procedure.
  - Radiology Associates of Appleton will bill you \$30 for the exam interpretation.

Please contact Primary Care Associates of Appleton at **920-996-1000** to schedule your next appointment and let the scheduler know if you are requesting a 3D mammogram.

 <p><b>1 IN 8 WOMEN</b> will develop breast cancer in her lifetime<sup>8</sup></p>	 <p>But, with early detection, the five-year survival rate is almost <b>100%</b><sup>9</sup></p>
