

Stephen C. Fuller, M.D.

Being a family doctor is a rewarding and fulfilling occupation. I give thanks daily to be in the position to assist others in a very intimate way, and working at Primary Care Associates of Appleton provides the ultimate environment to accomplish all my wishes and goals.

Human psychology and the natural sciences have always been an interest of mine, and of all medical specialties, family medicine best embodies my interests by taking care of the whole person.

Education

Medical degree:

Creighton University School of Medicine - Omaha, NE

Residency:

UW Health Fox Valley Family Practice - Appleton, WI

Board Certification:

American Board of Family Medicine

Professional Interests

Preventive care, pediatrics, sports medicine, and urgent care.

Personal

I have many interests such as reading, sports, and music. I'm an environmentalist and a hunter (yes, I believe that you can be both), and I love my family dearly. Any time that can be spent with them is precious.

Stephen C. Fuller, M.D.
