

## Scott M. Gyorog, MD

In a family practice setting, I am provided with the unique opportunity to provide primary care for the entire life of an individual. It allows me to practice a wide variety of medicine, from the care of newborns to the elderly with a family-centered approach.

I strive to make sure my patients understand everything about their health, their medical issues, and treatment recommendations. I take the time to listen, inform, and explain, while fostering open discussions that patients and families need to make educated decisions about their care.

### Education

#### Medical Degree:

University of Wisconsin School of Medicine and Public Health - Madison, WI

#### Residency:

Virginia Commonwealth University Health System - Richmond, VA

#### Board Certification:

American Board of Pediatrics

American Board of Internal Medicine

### Professional Interests

Preventive health and pediatrics.

### Personal

A native of the Fox Valley and UW alum, I am an avid Wisconsin Badgers fan. I also enjoy hunting, fishing, and spending time with family and friends.
