

Roderick L. Hubert, MD

Focusing on health prevention and chronic disease management, Internal Medicine requires a wide knowledge base but at the same time, offers great variety.

The continuity of care and the interactions I have with my patients are so important; I take pride in the influential

role I play in people's health and am honored to be a confidant in so many aspects of a patient's life. I'm the product of a humble Midwest upbringing and I look forward to serving the people of the Fox Cities in a caring, compassionate, and thorough way.

Education

Medical Degree:

Michigan State University College of Human Medicine - East Lansing, MI

Residency:

University of California-Davis Medical Center - Sacramento, CA

Board Certification:

American Board of Internal Medicine

Professional Interests

Preventive health, chronic disease management (diabetes, heart disease, high blood pressure, high cholesterol).

Personal

My interests and hobbies include hunting, fishing, gardening and yard work, and amateur home brewing. I enjoy just about any competitive sport or activity. Above all, I cherish family time with my wife and three children.
