

## David J. Lenz, MD

I am privileged to be surrounded by an exceptionally talented group of people at Primary Care Associates. Being a part of this practice allows me to connect with my patients on a deeper, more personal level.

Early in my career, my desire to diagnose was important. Now, guiding my patients to healing carries the most meaning as that is what is most important to them. Prevention of illness is a priority of my outlook on health. I have unbounded energy to help my patients learn how to combine healthy behaviors into lifestyle choices.

### Education

#### Medical Degree:

Medical College of Wisconsin - Milwaukee, WI

#### Residency:

Medical College of Wisconsin - Milwaukee, WI

#### Board Certification:

American Board of Internal Medicine

### Professional Interests

Preventive medicine, treatment of congestive heart failure, hyperlipidemia, and renal diseases.

### Personal

I enjoy spending time with my wife and family.
