

Primary Care Associates physicians are respected by both the patients and other health care providers. As a working mother, I am fortunate to have found the balance between work and home.

I enjoy the challenge in diagnosing and treating a variety of adult health care related issues and being able to focus on patient education to prevent disease and improve their quality of life.

Education

Medical degree:

Medical College of Wisconsin-Milwaukee, WI

Residency:

Medical College of Wisconsin-Milwaukee, WI

Board Certification:

American Board of Internal Medicine

Professional Interests

Evaluation and treatment of chronic medical diseases, as well as health prevention education across all adult age ranges.

Personal

I enjoy spending time with my husband and three children, as well as partaking in metabolic fitness training.

Kristine G. Juntunen, MD
