

Medical X-Ray Consultants

 a radiology partners practice

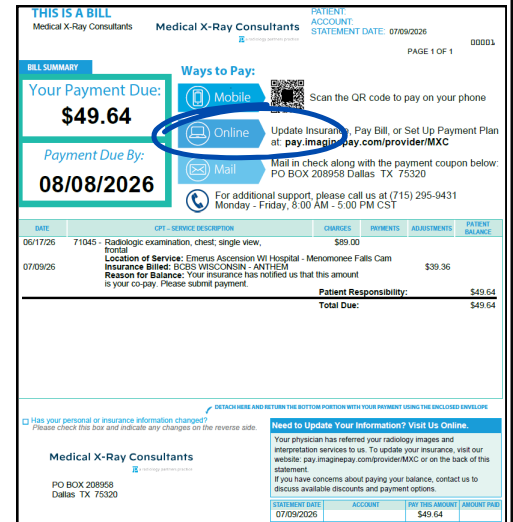

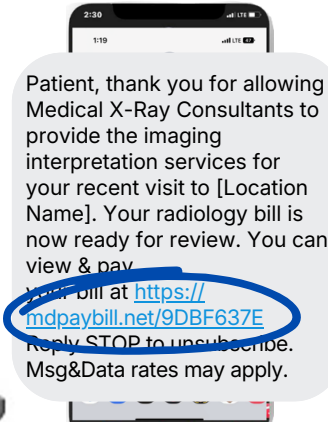

You may receive **two separate bills** for your visit today:

- One from Medical X-Ray Consultants for the radiologist's review
- One from the hospital or imaging center for technical services

If we have your email address or phone number, you will receive a digital statement first with an option to pay online before a paper bill is mailed. Billing may take up to 30 days. We will process any insurance first, then bill you for the remaining balance.

Online Patient Portal

- Use our online portal to **pay your bill, update your insurance, or set up a payment plan.**
- Once your statement is available, click the personalized link from your email or text message, or scan the QR code on your paper statement & enter your Date of Birth to access the portal.

If you are uninsured, you may qualify for a discount through our patient portal when you receive your statement. You may also call us to discuss additional payment options.
